			<i>abiding hunters and marksmen must be taken into consideration.</i> [AM 3]	
Recital 3	(3) Certain issues in Directive 91/477/EEC need further improvement.	(3) deleted	(3) Certain issues <i>arising from</i> Directive 91/477/EEC need <i>to be</i> further <i>improved in a proportionate way, to tackle firearms trafficking for criminal or terrorist purposes and to promote a harmonised application of the applicable rules by the Member States, so as to ensure the proper functioning of the internal market and a high level of security throughout the Union.</i> [AM 4]	GREEN [Recital 3 covered under compromise recital 2 as above]
Recital 3a (new)			(3a) <i>The definition of the term "firearm" should be clarified and the control of essential components enhanced by including in that definition any portable object which shares an essential component with a firearm. An essential component contained in any such device should be considered capable of being used in a firearm when the essential component in question can be transferred from that device to the firearm</i>	GREEN <u>EP AM 5 not endorsed.</u>

			<i>without substantial modification.</i> [AM 5]	
Recital 3b (new)			<i>(3b) The national defence forces of a Member State as defined under its national law may include, in addition to the military, units such as a home guard as well as reservists and voluntary defence forces taking part in national defence systems under the command of the national defence forces.</i> [AM 6]	GREEN <u>EP AM 6 not endorsed.</u>
Recital 3c (new)			<i>(3c) Certain persons have a legitimate interest in accessing firearms classified in category A, provided that exemptions are granted in exceptional and duly reasoned cases. Those persons could include, inter alia, armourers, proof houses, manufacturers, certified experts, forensic scientists and, in certain cases, those involved in film making.</i> [AM 7]	GREEN <u><i>(7e): Member States should, however, have the possibility to authorise the acquisition and the possession of prohibited firearms when necessary for educational, cultural, including film and theatre, research or historical purposes. Authorised persons could include, inter alia, armourers, proof houses, manufacturers, certified experts, forensic scientists and, in certain cases, those involved in film or television recordings. Member States should also be allowed to authorise individuals to acquire and possess otherwise prohibited firearms and essential components thereof for national defence, such as in the context of voluntary military training provided</i></u>

				<u>under Member State law.</u>
Recital 3d (new)			<i>(3d) Member States should be allowed to authorise individuals to acquire and possess prohibited firearms and essential components thereof for national defence purposes, such as in the context of voluntary military training provided under Member State law. [AM 8]</i>	<p>GREEN</p> <p>[EP AM 8 covered by compromise recital 7e as above]</p>
Recital 4	(4) Bodies concerned with the cultural and historical aspects of weapons and recognised as such by the Member State in whose territory they are established and holding in their possession firearms classified in category A acquired before the date of entry into force of this Directive should be able to keep those firearms in their possession subject to authorisation by the Member State concerned and provided that those firearms have been deactivated.	(4) deleted	<i>(4) It should be possible for Member States to choose to grant authorisations to recognised museums and collectors for the acquisition and the possession of prohibited firearms and ammunition when necessary for historical, cultural, scientific, technical, educational, aesthetic or heritage purposes, provided that they demonstrate, prior to being granted authorisation, that they have taken the necessary measures to address any risks to public security or</i>	<p>GREEN</p> <p><u><i>(7f): It should be possible for Member States to choose to grant authorisations to recognised museums and collectors for the acquisition and the possession of prohibited firearms and ammunition when necessary for historical, cultural, scientific, technical, educational or heritage purposes, provided that they demonstrate, prior to being granted authorisation, that they have taken the necessary measures to address any risks to public security or public order, including by way of secure storage. Any such authorisation should take into account and reflect the specific situation.</i></u></p>

			<i>public order, including by way of secure storage. Any such authorisation should take into account and reflect the specific situation, including the nature of the collection and its purposes.</i> [AM 9]	<u><i>including the nature of the collection and its purposes and Member States should ensure a system in place for monitoring collectors and collections.</i></u>
Recital 5	(5) Since collectors have been identified as a possible source of traffic of firearms, they should be covered by this Directive.	(5) To avoid that collectors become a (...) a possible source of traffic of firearms, they should be covered by this Directive. <u>Member States may authorise collectors to acquire and possess firearms, essential components thereof and ammunition in line with this Directive. Moreover, in individual special cases and subject to strict conditions on security, Member States may, subject to periodic review, authorise collectors to acquire and possess prohibited firearms.</u>	(5) Collectors have <i>the same rights as other users covered by Directive 91/477/EC and should therefore be included in its scope.</i> [AM 10]	GREEN [Recital 5 covered by compromise recital 7f as above]
Recital 6	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive.	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive.	(6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive, <i>and should be subject to the same obligations as dealers in all</i>	GREEN (6) Since brokers provide services similar to those of dealers, they should also be covered by this Directive <u><i>91/477/EC in respect of the obligations</i></u>

			<p><i>relevant respects. [AM 11]</i></p>	<p><i><u>of dealers that are relevant to brokers' activities, to the extent that they are in a position to carry out those obligations and insofar as these are not carried out by a dealer regarding the same underlying transaction.</u></i></p>
<p>Recital 6a (new)</p>			<p><i>(6a) This Directive should specify that the activities of a dealer include not only the manufacturing but also the significant modification or conversion of a firearm, such as the shortening of a complete firearm, leading to a change in its category or subcategory, and in addition the significant modification or conversion of essential components of firearms and of ammunition, and that, therefore, only authorised dealers should be permitted to engage in those activities. Hand-loading and reloading of ammunition from ammunition components for private use should not be considered a significant modification. [AM 12]</i></p>	<p>GREEN</p> <p><i><u>(6a) For the purposes of this Directive, the definition of a broker should be understood to cover any natural or legal person including partnerships. For the purposes of this Directive, the term "supply" should be deemed to include lending and leasing. The activities of a dealer include not only the manufacturing but also the modification or conversion of a firearm, essential components and of ammunition, such as the shortening of a complete firearm, leading to a change in its category or subcategory. Purely private, non-commercial, activities, such as hand-loading and reloading of ammunition from ammunition components for own use or modifications of firearms owned or essential components owned, such as changes to the stock or sight or maintenance to address wear and tear of components, should not be considered activities that only a dealer would be</u></i></p>

				<u>permitted to undertake.</u>
Recital 6b (new)			<p><i>(6b) As is the case with respect to the system of reporting suspicious transactions under Regulation (EU) No 98/2013 of the European Parliament and of the Council^{1a}, a transaction for the acquisition of complete rounds of ammunition or live primer components of ammunition should be considered suspicious if, for example, it involves quantities uncommon for the envisaged private use, or if the purchaser appears unfamiliar with the use of the ammunition or is unwilling to provide proof of his/her identity. Where it is not possible for a dealer or broker to verify the identity of the purchaser, any payment solely in cash for the acquisition of firearms should be prohibited.</i></p> <p>[AM 13]</p> <p>^{1a} Regulation (EU) No 98/2013 of the European Parliament and of the Council</p>	<p>GREEN</p> <p><u><i>(6b) Brokers and dealers should be able to refuse to complete any suspicious transaction for the acquisition of complete rounds of ammunition or live primer components of ammunition. A transaction may be considered suspicious if, for example, it involves quantities uncommon for the envisaged private use, if the purchaser appears unfamiliar with the use of the ammunition or if he insists on paying in cash while being unwilling to provide proof of their identity. Brokers and dealers should also be able to report such suspicious transactions to the competent authorities.</i></u></p>

			<i>of 15 January 2013 on the marketing and use of explosives precursors (OJ L 39, 9.2.2013, p. 1).</i>	
Recital 7	(7) Taking into consideration the high risk of reactivating badly deactivated weapons and in order to enhance security across the Union, deactivated firearms should be covered by this Directive. Additionally, for the most dangerous firearms stricter rules should be introduced in order to ensure that those firearms are not allowed to be owned or traded. Those rules should also apply to firearms of that category even after they have been deactivated. Where those rules are not respected, Member States should take appropriate measures including the destruction of those firearms.	(7) Taking into consideration the high risk of reactivating <u>improperly</u> deactivated weapons and in order to enhance security across the Union, deactivated firearms should be covered by this Directive. <u>Additionally, taking into consideration the principles of deactivation of firearms as provided for by the Council Decision of 11 February 2014⁵, which transposes in the EU legal framework the "Protocol against the Illicit Manufacturing of and Trafficking of Firearms, their Parts and Components and Ammunition (UNFP)", a definition of deactivation in accordance with the above-mentioned principles should be given.</u>	(7) <i>deleted</i> [AM 14]	GREEN (7) Taking into consideration the high risk of reactivating <u>improperly</u> deactivated firearms and in order to enhance security across the Union, <u>such</u> firearms should be covered by this Directive. Additionally, <u>taking into consideration the principles of deactivation of firearms as provided for by the Protocol against the Illicit Manufacturing of and Trafficking of Firearms, their Parts and Components and Ammunition, attached to Council Decision 2014/164/EU of 11 February 2014^[2], which transposes that Protocol into the EU legal framework, a definition of deactivated firearms corresponding with the above-mentioned principles should be given.</u>

Amendment 105

Text proposed by the Commission - none

Amendment

(14a) The following Annex is added:

‘Annex III

Technical specifications for the deactivation of firearms

The deactivation operations to be performed in order to render firearms irreversibly inoperable are defined on the basis of three tables:

Table I lists the different types of firearms;

Table II describes the operations to be performed to render each essential component of firearms irreversibly inoperable,;

Table III sets out which deactivation operations are to be performed for the various types of firearm.

TABLE I: List of types of firearms

TYPES OF FIREARMS

1	<i>Pistols (single shot, semi-automatic)</i>
2	<i>Revolvers (including cylinder-loading revolvers)</i>
3	<i>Single-shot long firearms (not break action)</i>
4	<i>Break action firearms (e.g. smoothbore, rifled, combination, falling/rolling block action, short and long firearms)</i>
5	<i>Repeating long firearms (smoothbore, rifled)</i>
6	<i>Semi-automatic long firearms (smoothbore, rifled)</i>
7	<i>(Full) automatic firearms, e.g. selected assault rifles, submachine guns, full automatic pistols (not crew-served machine guns)</i>
8	<i>Muzzle-loading firearms</i>

TABLE II: Specific operations per component

COMPONENT	PROCESS
1. BARREL	<i>1.1. If the barrel is fixed to the frame (1), pin the barrel to action with a hardened steel pin (diameter > 50 % chamber, minimum 4,5 mm) through the chamber and frame. The pin must be welded (2).</i>
	<i>1.2. If the barrel is free (not fixed), cut a longitudinal slot through the full length of the chamber wall (width > ½ calibre and maximum 8 mm) and securely weld a plug or a rod into the barrel from the start of the chamber (L barrel length). For smoothbore barrels, only the chamber requires permanently blocking with a plug of the same length as the chamber.</i>
	<i>1.3. Within the first third of the barrel from the chamber, either drill holes (must have a minimum of of the diameter of the bore for smoothbore arms and the whole diameter of the bore for all other arms; one behind the other, 3 for short arms, 6 for long arms) or cut, after the chamber, a V slot (angle 60 ± 5°) opening locally the barrel or cut, after the chamber, a longitudinal slot (width 8-10 mm ± 0,5 mm, length 52 mm) at the same position as the holes, or cut a longitudinal slot (width 4-6 mm ± 0,5 mm) from the chamber to the muzzle, except 5 mm at the muzzle.</i>
	<i>1.4. For barrels with a feed ramp, remove the feed ramp.</i>

	<p><i>1.5. Prevent removal of the barrel from the frame by use of hardened steel pin or by welding.</i></p> <p><i>1.6. Fix a rod in the barrel forcing cone ($L >$ barrel length). Weld into forcing cone. Pin the barrel (through forcing cone) to the frame and weld pin. Drill a hole bore diameter within the first third of the barrel from the forcing cone and weld the rod to the barrel through the drilled hole</i></p>
2. BREECH BLOCK, BOLT HEAD	<i>2.1. Remove or shorten firing pin.</i>
	<i>2.2. Machine the bolt face with an angle of at least 45 degrees and on a surface larger than 50 % of the breech face.</i>
	<i>2.3. Weld the firing pin hole.</i>
3. CYLINDER	<i>3.1. Remove all internal walls from cylinder for a minimum of of its length by machining a circular ring 50% case diameter.</i>
	<i>3.2. Where possible, weld to prevent the removal of the cylinder from the frame or appropriate measures such as pinning that render the removal impossible.</i>
4. SLIDE	<i>4.1. Machine or remove more than 50 % of the breech face with an angle between 45 and 90 degrees.</i>
	<i>4.2. Remove or shorten the firing pin.</i>
	<i>4.3. Machine and weld the firing pin hole.</i>
	<i>4.4. Machine away at least of the locking lugs in slide</i>
	<i>4.5. Where applicable, machine the inside of the upper forward edge of the ejection port in the slide to an angle of 45 degrees.</i>
5. FRAME (PISTOLS)	<i>5.1. Remove feed ramp.</i>
	<i>5.2. Machine away at least of the slide rails on both sides of the frame.</i>
	<i>5.3. Weld the slide stop or use appropriate measures if welding is not possible.</i>
	<i>5.4. Prevent disassembly of polymer frame pistols by welding or bonding or use appropriate measures if welding or bonding is not possible.</i>
6. AUTOMATIC SYSTEM	<i>6.1. Destroy the piston and the gas system by cutting or welding.</i>

	<p>6.2. Remove the breech block, replace it by a steel piece and weld it or reduce the breech block by 50 % minimum, weld it and cut off locking lugs from the bolt head.</p> <p>6.3. Weld the trigger mechanism together and, if possible, with the frame. If welding within the frame is not possible, remove the firing mechanism and fill the empty space appropriately (e.g. by gluing in a fitting piece of filling with epoxy resin).</p>
7. ACTION	<p>7.1. Machine a cone of 60 degrees minimum (apex angle), in order to obtain a base diameter equal to 1 cm at least or the diameter of the breech face.</p> <p>7.2. Remove the firing pin, enlarge the firing pin hole at a minimum diameter of 5 mm and weld the firing pin hole.</p>
8. MAGAZINE (where applicable)	<p>8.1. Weld the magazine with spots or use appropriate measures, depending on the type of arm and material to prevent removing the magazine.</p> <p>8.2. If the magazine is missing, place spots of weld in the magazine location or fix a lock to permanently prevent the insertion of a magazine.</p> <p>8.3. Drive hardened steel pin through magazine, chamber and frame. Secure by weld.</p>
9. MUZZLE LOADING	9.1. Remove or weld the nipple(s), weld the hole(s).
10. SOUND MODERATOR	<p>10.1. Prevent removal of the sound moderator from the barrel by use of hardened steel pin or weld if the sound moderator is part of the weapon.</p> <p>10.2. Remove all the inner parts and their attachment points of the moderator so that only a tube remains. Drill two holes in the casing (5mm) in diameter near the point the sound moderator attaches to the barrel.</p>
Hardness of inserts	Hardened steel rod or pin
